The Legal Calls Advantage

How we're different

- We know what really matters to you is the cost per compensable case. That's our focus at Legal Calls.
 - Our fraud detection department is second to none. We run a series of cross-checks to eliminate fraud.
 - We use numerous services to verify identity, check criminal backgrounds, and confirm social security details provided.
 - We can even confirm medical record diagnosis. You can lean on our experience to weed out fraud so you don't have to.
 - Non-incentivized intake agents! Most case originators pay a bonus to their agents on signing, which leads to signing unqualified claimants.
 - We conduct in-depth interviews by asking open-ended non-leading questions, like an attorney would do.
-
